Launch Events 2011

The 2011 Vision in Business for the Environment of Scotland Awards (VIBES) is now in its twelfth year and aims to recognise businesses of all sizes and sectors employing environmental best practice in their daily activity to cut down on resource use, increase sustainability, improve reputation and benefit their company’s bottom-line.

This year’s awards will launch through a series of free events across the country in May. The launch events are being hosted by previous VIBES winners so that you can see the work that they carried out in order to win an award and to understand the benefits it has had to the company. Businesses will be able to find out more information about how the awards work and meet some of the VIBES steering group who will be on hand to answer any questions.

It’s also an opportunity to network with businesses over a glass of wine and to be inspired by the great work that our previous VIBES winners have done to make their business as green as possible!

To book your place please email vibes@sepa.org.uk

VIBES is the only Scottish awards scheme which feeds into the European Business Awards for the Environment (EBAE). By winning a VIBES Award, companies are eligible to enter the EBAE, which attract entries from the cream of Europe’s most environmentally positive businesses.

VIBES is a partnership between: Environmental Protection UK; NetRegs; Scottish Business in the Community; Scottish Environment Protection Agency; Scottish Government and Zero Waste Scotland.

The scheme is also supported by: CBI Scotland; Energy Saving Trust; Forward Scotland; Green Business Partnership; Highlands and Islands Enterprise and Scottish Enterprise.
For more information or to obtain an application form businesses can visit www.vibes.org.uk
